There was considerable speculation about the Federal Building, however, over the visit of Ambassador von Bernstorft to this city when the international situation affecting Germany and the United States is at such a crucial stage. In some quarters his visit was construed in connection with the Von Igel incident. It was assumed that the Germany Ambass. if connection with the Von Igel incident.

Scholz and Dacche Also to Face Conspiracy Prosecution.

Judge Harland B. Howe of the United States District Court announced yesterday that the trial of Lieut. Robert Fay, Walter Scholz and Paul Dacche positively would go on before him next Tuesday morning at 10:30 o'clock. The three defendants are under six indictments charging conspiracy to blow up ships canyying munitions from this country to the Allies and also to commit murder and assault on the high seas.

Patrick H. McDonald, attorney for the defendents, will, it is believed, present the defence that his clients were victims of a plot on the part of the police. Assistant United States Attorney John C. Knox, however, is confident that his chain of evidence will admit of no escape for the three men.

Eugene V. Debs, national leader of the Socialist party, issued yesterday a manifesto calling on Socialists to rally to the support of Atlan Louis Benson and George Kirkpatrick, candidates for President and Vice-President.

"They are true Socialists, real leaders, actual men," he said. "Both were born in poverty, reared in the humble surroundings of the working class and both spent their boyhood and the earlier years of their manhood in the bitter struggle for existence. \* \* \* They have proved themselves fit and qualified to represent the masses, speak for the people and to be standard bearers of their party in the struggle to destroy capitalization, abolish alasery, but an end to war and bring freedom and happiness to a distracted world."

For this superior loaf and every kind of WARD'S BREAD as well are vastly better than any home made loaf.

# And this is why!

Only the very finest food materials which scientific knowledge and the opportunity large purchases can provide are used in making WARD'S BREAD. The dough mixing room temperature is automatically regulated and the oven heat controlled. Then the WARD patented process reduces time of fermentation, and by the addition of proper quantities of beneficial lime salts corrects and modifies the water used to bring it to the best standard for bread making, thereby producing a loaf of bread better in quality, taste and texture, and most important of all, of greater nutritive

food value. So, with the use of high grade products—the most scientific methods known to the baking industry and absolute cleanliness—WARD'S BREAD presents a trinity of facts, which every thinking housewife will admit proves and establishes our claim that
